Summary of 2025 and Outlook for the Challenges in 2026

KWT made significant progress during the 2025 season, entering the final round with a genuine chance of claiming the world title.

Although the team ultimately finished 4th in the championship standings, the season clearly demonstrated that Kawasaki has the capability to fight at the forefront of the world title battle.

In 2026, KWT will turn the experience and frustration of 2025 into strength, further enhance our competitiveness, and once again set the sights on the top of the world.

Ryuji Tsuruta – Team Manager

KWT has now completed its third year of competition in the FIM Endurance World Championship.

Last year, we stood on the podium at Le Mans for the first time, giving us the firm conviction that the world title is truly within reach.

I believe that 2026 will be the year in which we take the next step beyond that milestone. Together with our riders, team crew, sponsors, and fans, we will unite as one team and strive to achieve even greater results.

We sincerely appreciate your continued support for Team Kawasaki Webike TRICKSTAR throughout the 2026 season.
